

# All Star Technology!

## All Star Technology! **IBM Websphere Portal**

IBM has saved over \$685 million running their business on WebSphere Portal Technology and Major League Baseball runs their business on the same platform. In a few weeks, so can you!

Putting your portal together should not take months. IBM offers a configuration of WebSphere Portal targeted at midsize companies and departments of large enterprises. It provides a complete, ready-to-use business solution that solves a majority of your Intranet Portal content immediately. It is bundled with competitively priced professional services to allow you to deploy it in less than a month.

Join IBM and CITENT on Monday, July 12 for lunch and an updated review of the IBM Portal Solutions. We will discuss the unique capabilities of IBM Websphere Portal, and review the Portal Now configuration to help you determine if it is a good fit for your business needs.

As additional consideration for your time, we will have a drawing for Tickets to the All Star Home Run Derby that evening or the All Star game in Anaheim on Tuesday, July 13.

Gartner ranked IBM WebSphere Portal as the worldwide market share leader in Enterprise Portals for the 7th consecutive year. WebSphere Portal is also ranked highest in Gartner's Magic Quadrant for Portals over competitors such as Microsoft, Oracle, and SAP.

Don't get caught looking! WebSphere Portal is a home run for any business
